

Abstract (Poster) 5%

- Egypt grand challenges
- Problem to be solved (specific problem)
- Chosen solution
- Design requirements
- Prototype description
- Testing results
- Conclusion

- Abstract alone generates excitement and desire to learn more about the topic
- Writing is professional, organized and well developed.

Introduction (Poster) 10%

- Grand challenges
- Prior solutions(Summarizes prior solution attempts strengths and weaknesses.)
- the team's chosen solution(how was chosen)
- how the solution addresses the design requirements
- Prototype justifying why you chose your prototype .

Materials and Methods (Poster) 10%

- Materials list

item	description	Quantity	Usage	Source of purchase	Image
------	-------------	----------	-------	--------------------	-------

- Prototype construction procedures

- Test plan procedures

Design requirements	Test plan procedures
	Test plan 1
	Test plan 2

Results (Poster) 15%

- Prototype testing results

Test plan	Results Negative / positive results	scenarios that were conducted for the prototype testing results

- Tables and diagrams or figures that summarizes results .

Analysis (Poster) 20%

- **Short intro :**

1. negative & positive results
2. Specific problem
3. Egypt grand challenges

- Analysis is supported by pictures, graphs, charts and other visuals, and prototype test results

Design requirements	Test plan	Observation

- scientific laws and theories
- Learning transfer of learning outcomes

Conclusions 10%

- Test results and analysis
- Test results are compared to other solutions Findings

Recommendation 5 %

- Improvement of the project in the future .
- Future research
- Application of the project in reality
- Marketing of the project

Literature Cited (Poster) 5%

- Includes only sources cited in the poster text (at least 5 credible sources)
- Different kinds of sources (paper- books, encyclopedia - websites) not only websites
- Is prepared according to the American Psychological Association (APA) style guidelines(4th edition)
- At least five citations are peer-review publications
